

Services We Provide

- **Skilled Nursing** : Professional nursing care for complex medical needs
- **Physical Therapy** : Helps patients regain mobility and strength after injury or illness
- **Occupational Therapy** : Helps patients regain skills needed for daily activities
- **Speech Therapy** : Helps patients with communication and swallowing difficulties
- **Home Health Aide** : Assists with daily living activities, such as bathing and dressing
- **Medical Social Worker** : Provides support and resources for emotional, financial and social needs

When it comes to getting well,
the old adage rings true:
"There is no place like home"
Time and again, patients have
shown they do
better, both physically and
emotionally, in their private and
quiet surroundings, close to
family and friends.
